

**ELEMENTARY MATHEMATICS CONSULTANT**  
Collaborative for Teaching and Learning

The Collaborative for Teaching and Learning (CTL), a non-profit Louisville-based education agency, is seeking candidates for a part-time Mathematics Consultant position. The candidate must have:

- Master's degree, and a proven record of success as a teacher in the elementary setting
- Additional training in mathematics preferred
- Experience in creating high-quality, student-centered teaching and learning environments in both classroom and professional development settings
- Demonstrated leadership in working with educators to improve classroom practice
- Applied understanding of current research about best practices as it pertains to instruction and learning of mathematics
- Excellent written and oral communication skills
- Commitment to collaboration and teamwork in planning and development
- Personal commitment to self-reflective practice and on-going professional development
- 

Candidates with leadership experience at the team, departmental, building, or district level are strongly encouraged to apply. Some statewide travel will be required.

Screening of candidates will begin after October 15, 2024, and will continue until the position is filled.

Salary commensurate with experience.

Interested applicants are encouraged to contact CTL to discuss the position at [seddleman@ctlonline.org](mailto:seddleman@ctlonline.org) or (502) 895-9500, ext 330. Applicants should submit a letter of application, resume, writing sample and references to:
